# HYDRAULIC CHAIN SAW

**P**istol Grip, Lightweight & Versatile

The Deron CS05 Hydraulic Chain Saw is ideal for cutting underground timbers and cross beams. The CS05 is furnished with a hose kit (including an integral flow control) to permit operation from most mining equipment hydraulic systems. Its lightweight and pistol-grip handle make the CS05 easy to operate. The standard 15" saw bar has a cutting capacity of 12" and the optional 18" saw bar has a cutting capacity of 15". An optional chain/bar guard (as shown), is available for the CS05 as a recommended safety feature designed to protect the operator. Weighing only 7-3/4 lbs. (without guard), the Deron CS05 Hydraulic Chain Saw is an efficient and cost effective tool.

## Features

- Lightweight with Pistol-Grip Handle (Heat Insulated)
- Two-Step Safety Trigger with Guard
- Hose Kit with Integral Flow Control
- Optional 18" Saw Bar Optional Chain/Bar Guard
- Automatic Oiler

## Specifications

- 6 GPM @ 1500-2000 psi
- Weight: 7-3/4 lbs. (without guard)
- Hose kit permits operation on systems up to 20 GPM
